Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants' process for the production of chlorodifluoroacetyl fluoride is unobvious over the prior art of record. Although it is known in the art that chlorodifluoroacetyl fluoride can be prepared from oxidizing chlorotrifluoroethylene, the prior art of record does not teach or suggested reacting oxygen with a solvent solution of the chlorotrifluoroethylene to prepare the chlorodifluoroacetyl fluoride. Such a modification would not have been apparent to one having ordinary skilled in the art when considering that different reaction products (other than the desired product) may be obtained when an additional component is introduced into the reaction system. All claims (1-28) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
